One little stant which is a good thustration of Sloman's originality along training lines in the fact that he wears different wrates from other stilletes while walting to be called to the mark, and be has a good reason for it.

Nearly every track man waits around in a flowing bathrobe, but not so with Sioman. He has done practically all his ranning on local tracks, which are sometimes swept by cold winds, and his apprel always has consisted of woolen tracks and a thick strate. The wind can swoop up under the bathrobes of other athletes, but Sioman is sure to be sing.

chances are: No. 1-knockout; No. 2 fatigue or pain that would cause Wil-lard to quite or to refuse to answer the going at the start of a round; No. 2-some accident to the champion that would prevent his continuing to the end.

Chance of Accident Slight. Chance of Accident Slight.

The chance of an accident is so alight that it can be forgotten. The same is true of the possibility that the champion will receive such a beating, or be so tired from his own efforts that he will quit of his own accord. A man who can travel 15 rounds against Jack Johnson is not likely to be wern down in any is nound. That leaves the inockout as the only reasonable way for Moran to become champion.

Willard on points is our idea of the most Diely outcome of tonightte scrap. Next in line of prolability is Willard victor by a knockout. We see very little chains of a draw with man of so widely different styles engaged. is at liberty to write or call on me in person and get a verification of this testimonial.

E. R. LEE.

To Whom It May Concern: -

For the benefit of any sufferer from Piles, I wish to hereby state that about a year ago I went to Dr. Ketchernid, of the International Specialists for a very severe and painful case of Piles. I had been a sufferer from Piles for a long time, and had tried all kinds of treatment, salves, dilators, injections, without relief, and was very skeptical as to a cure. But I can say with pleasure, that after the first administration of Dr. Ketchersid's treatment, I had relief and in less than a week I was occupietely cured, in every way, and have not had the least trouble since I took the treatment. E. R. LEE.

El Paso, Texas, March 6, 1916.

Dear Doctor Ketchersid: I wish to state that I am completely cured of a a bad case of piles and ulcerations of ten years' standing, after taking your painless Pena Intiltration treatment, and would advise all sufferers of piles to go to you, for you would surely cure them without any pain or being laid up in bed. Organ, N. M., March 2, 1916.

Dear Doctor Ketchersid:-I called upon you February 26th in reference to a case of piles, from which I had been a sufferer for a long time, and after you examined me told me that you could cure me permanently in about a week without any pain, or laying me up in hed—I was some what skeptical at first for I had tried a great many treatments, and I remarked in the usual way—that "I was from Missouri and had to be shown." I am happy to state that you did as you agreed. I was operated upon by two well known Rectal Specialists in Dallas, Texas, in 1908, and in 1911 by another Specialist in Dallas—without obtaining relief, and was told by my brother, an interne in the hospital, also by my family physician, that nothing but an operation could do me say good, and after taking two treatments from you, all pain, bleeding and protrusion were stopped, and five treatments, none of which caused the least pain, I am glad to state that I am entirely cured and will gladly refer all of my friends to you, and you can publish this any way you see proper, and I will gladly answer all impuries, for I cannot praise your treatment too highly. Thanking you for what you have done for me, for I had been a sufferer from piles a great many years. I remain.

Sincerely your friend, A. P. RHODE,
